

# RETRO-CX WITH CHIEFS:

---

TRAINING OPERATORS TO SUSTAIN THE PROCESS

# BUILDINGS THAT LEARN — THE ROLE OF OPERATORS

- Building operators negotiate between users, technologies and the building, and thus, their understanding of and knowledge about the building is vital for reaching goals of energy efficiency.
  - *Margrethe Aune & Robert Bye*

# OPERATIONS (PAST)

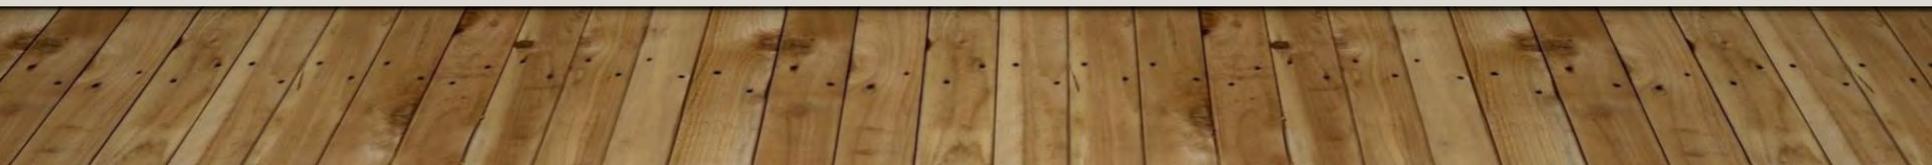

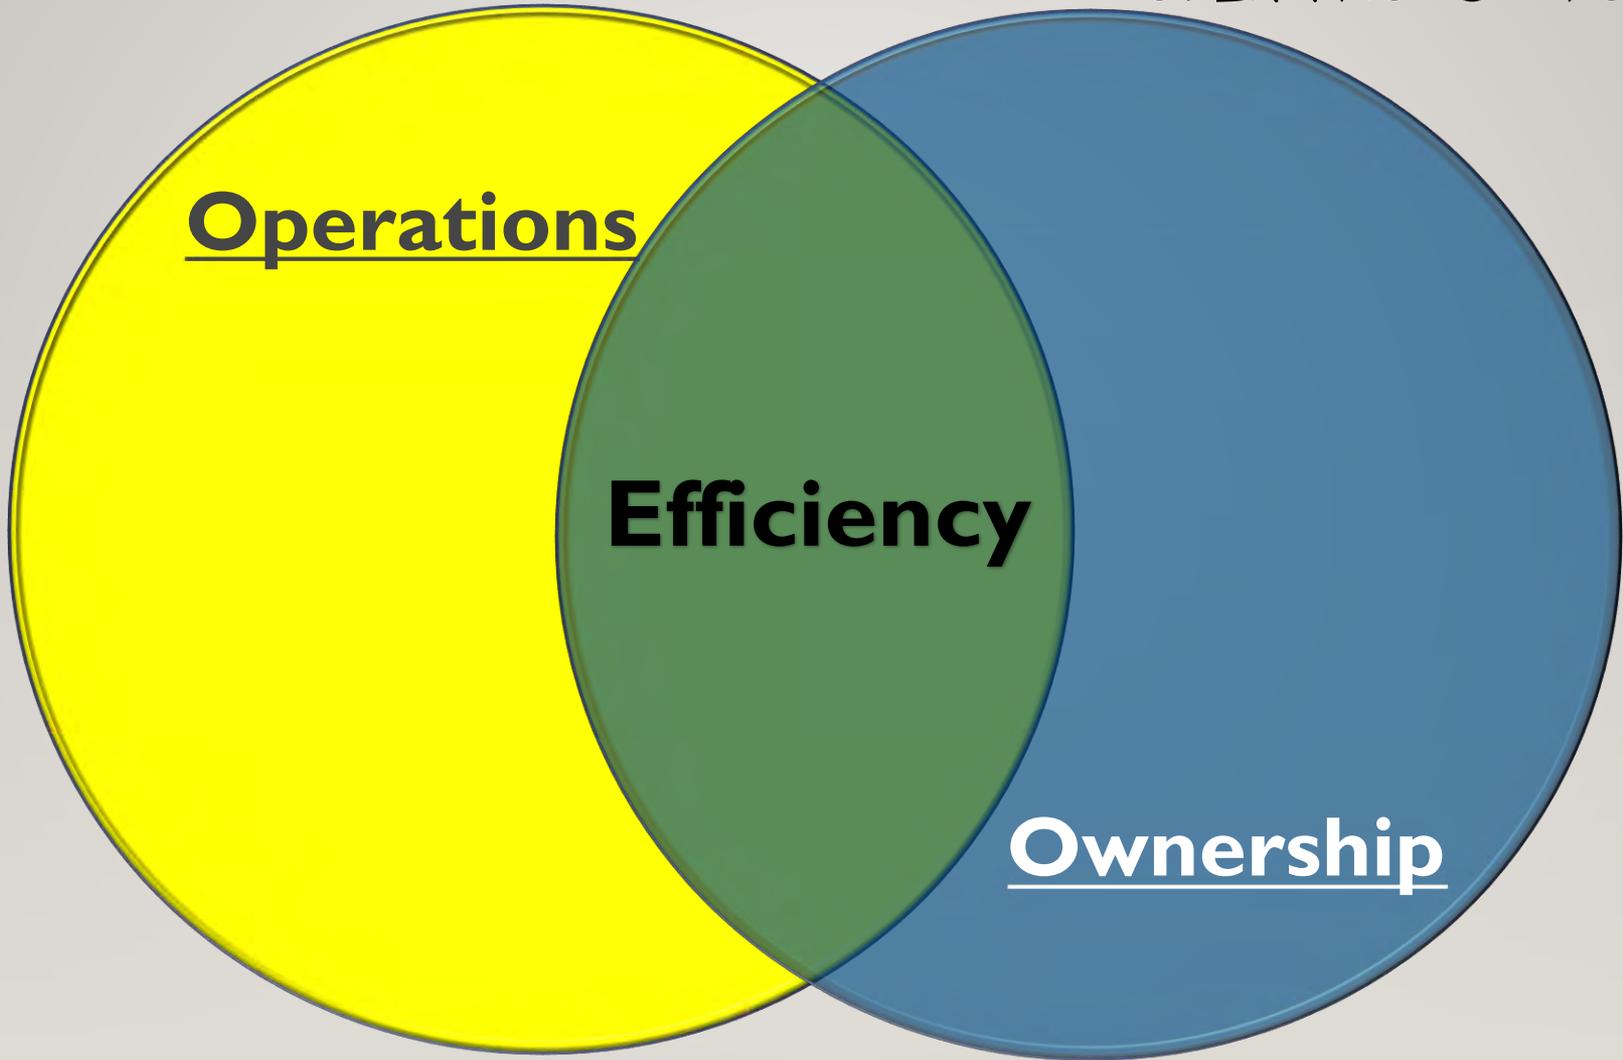

## Operations:

- Occupant Focus
- Respond to comfort complaints
- Repair of & maintenance on existing systems

## Ownership

- Bottom Line Focus
- Avoid cost increases
- Variance Based
- Vacancy

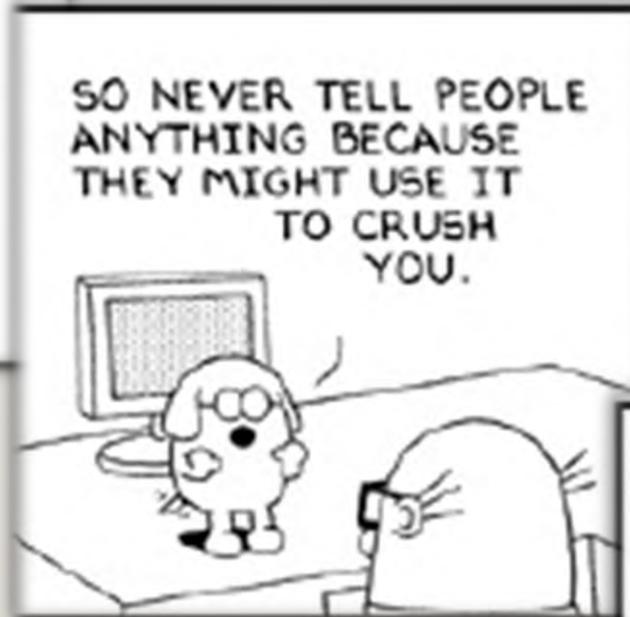

# OPERATIONS (TODAY)

# RETRO-CX MILESTONES

---

- Site orientation & documentation review
- Define the Current Facility Requirements (CFR)
- Energy Analysis / Benchmarking
- Trending/ Data logging
- Design/ Installation reviews (DIRs)
- Functional checks (FCs)
- Performance tests (PTs)
- Reporting & Issue Resolution
- Persistence Strategy

**"TEAMWORK BEGINS BY BUILDING *TRUST.***  
**AND THE ONLY WAY TO DO THAT IS TO**  
**OVERCOME OUR NEED FOR**  
***INVULNERABILITY.*"**

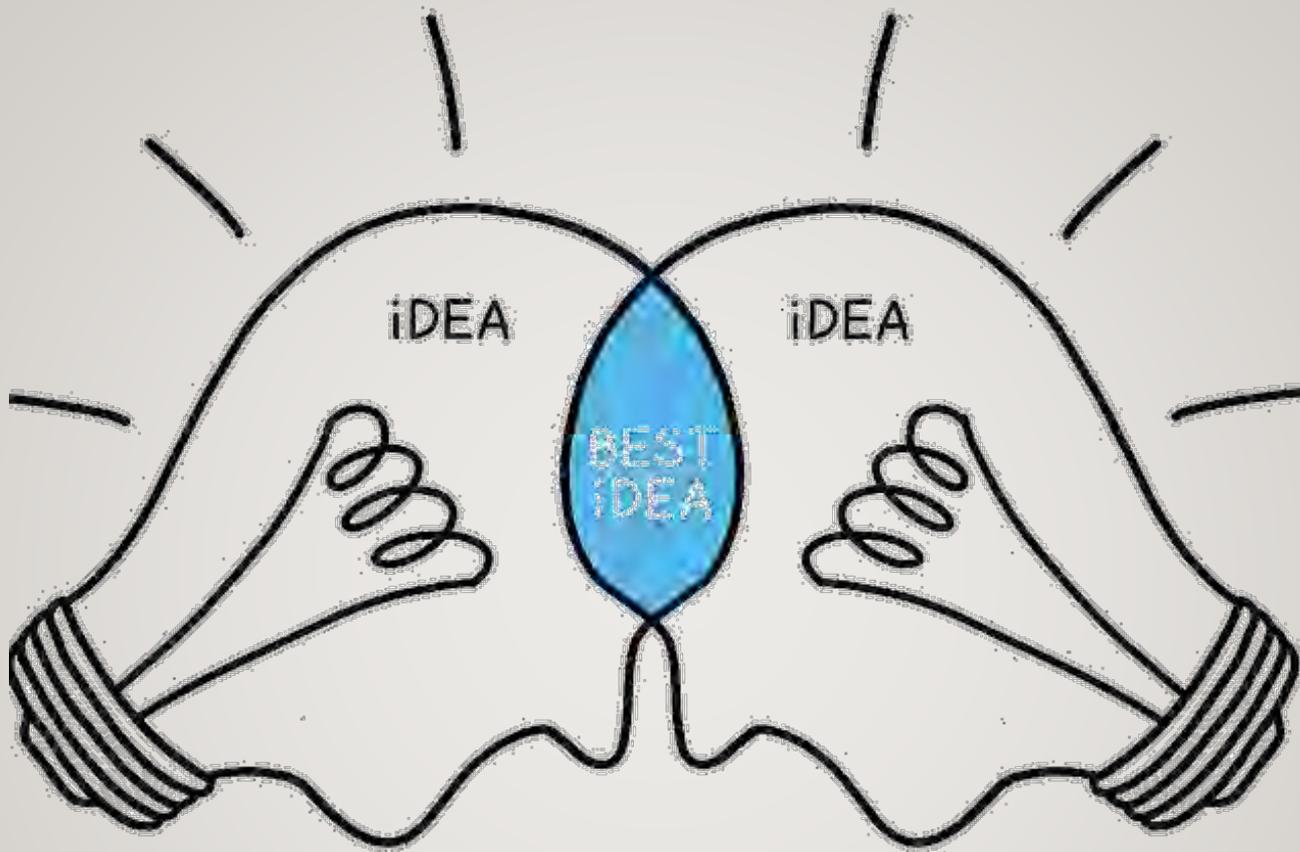

**PATRICK LENCIONI**

"NEVER  
MISS A  
GOOD  
CHANCE  
TO  
SHUT UP."

—will rogers

Listening  
=  
Learning

# RESULTS OF GOOD COMMUNICATION

---

- Occupants & Usage
- Environment to be Achieved
- Planned / Unplanned Capital Expenses
- Utility Budget / Management
- Operating Schedules / Strategies
- Setpoints & Resets
- Seasonal Constraints
- Past Experiences (Successes & Failures)
  - Information vs. Knowledge

A rising tide lifts  
all the little boats

**“Many ideas grow better  
when transplanted into  
another mind than the one  
where they sprang up.”**

**Oliver Wendell Holmes**

# “8 1/2 X 11 GLOSSIES”

---

- Involvement in Project Development
  - Aware of existing building issues & common problems
- Can often develop a list of potential improvement
  - Help focus the analysis
- Sustain improvements after resolution & implementation
  - Know what can and will be done...
  - Is it worth doing?

If everyone is moving  
forward together,  
then success takes  
care of itself.

Henry Ford

# INVOLVED IN PROJECT IMPLEMENTATION

---

- How will I maintain this?
- Where do I get spare parts?
- How do I use this now?
- What mode is it supposed to be in?
- What about when this happens?
  
- Forget this, I'm putting it in hand...

“ Our overall impression from the data is that end-users in buildings seldom hamper the process of making buildings energy efficient.

More common challenges are the small socio-technological adjustments that are necessary in order to make the building work and make the end-users satisfied.

Building operators are in many ways what we can call ‘super-users’ in the sense that they mediate between the buildings and the users.”

**We're still talking  
about Retro-Cx right?**

# SUSTAINING KNOWLEDGE

---

- **BINDER & SYSTEMS MANUAL**
  - 20-30% of our time searching for information
- **RCX PLAN**
  - Test Sheets
- **PERSISTANCE PLANNING**
  - Improve efficiency and encourage communication
- **TRAINING PROGRAM**
  - High turnover
  - Leverage wisdom to prevent re-inventing the wheel

“ YOU ARE NOT A  
TRUE SUCCESS  
**UNLESS YOU'RE**  
HELPING  
OTHERS BE  
SUCCESSFUL ”
